VIRGINIA'S JUDICIAL SYSTEM

Court Hearings & Process

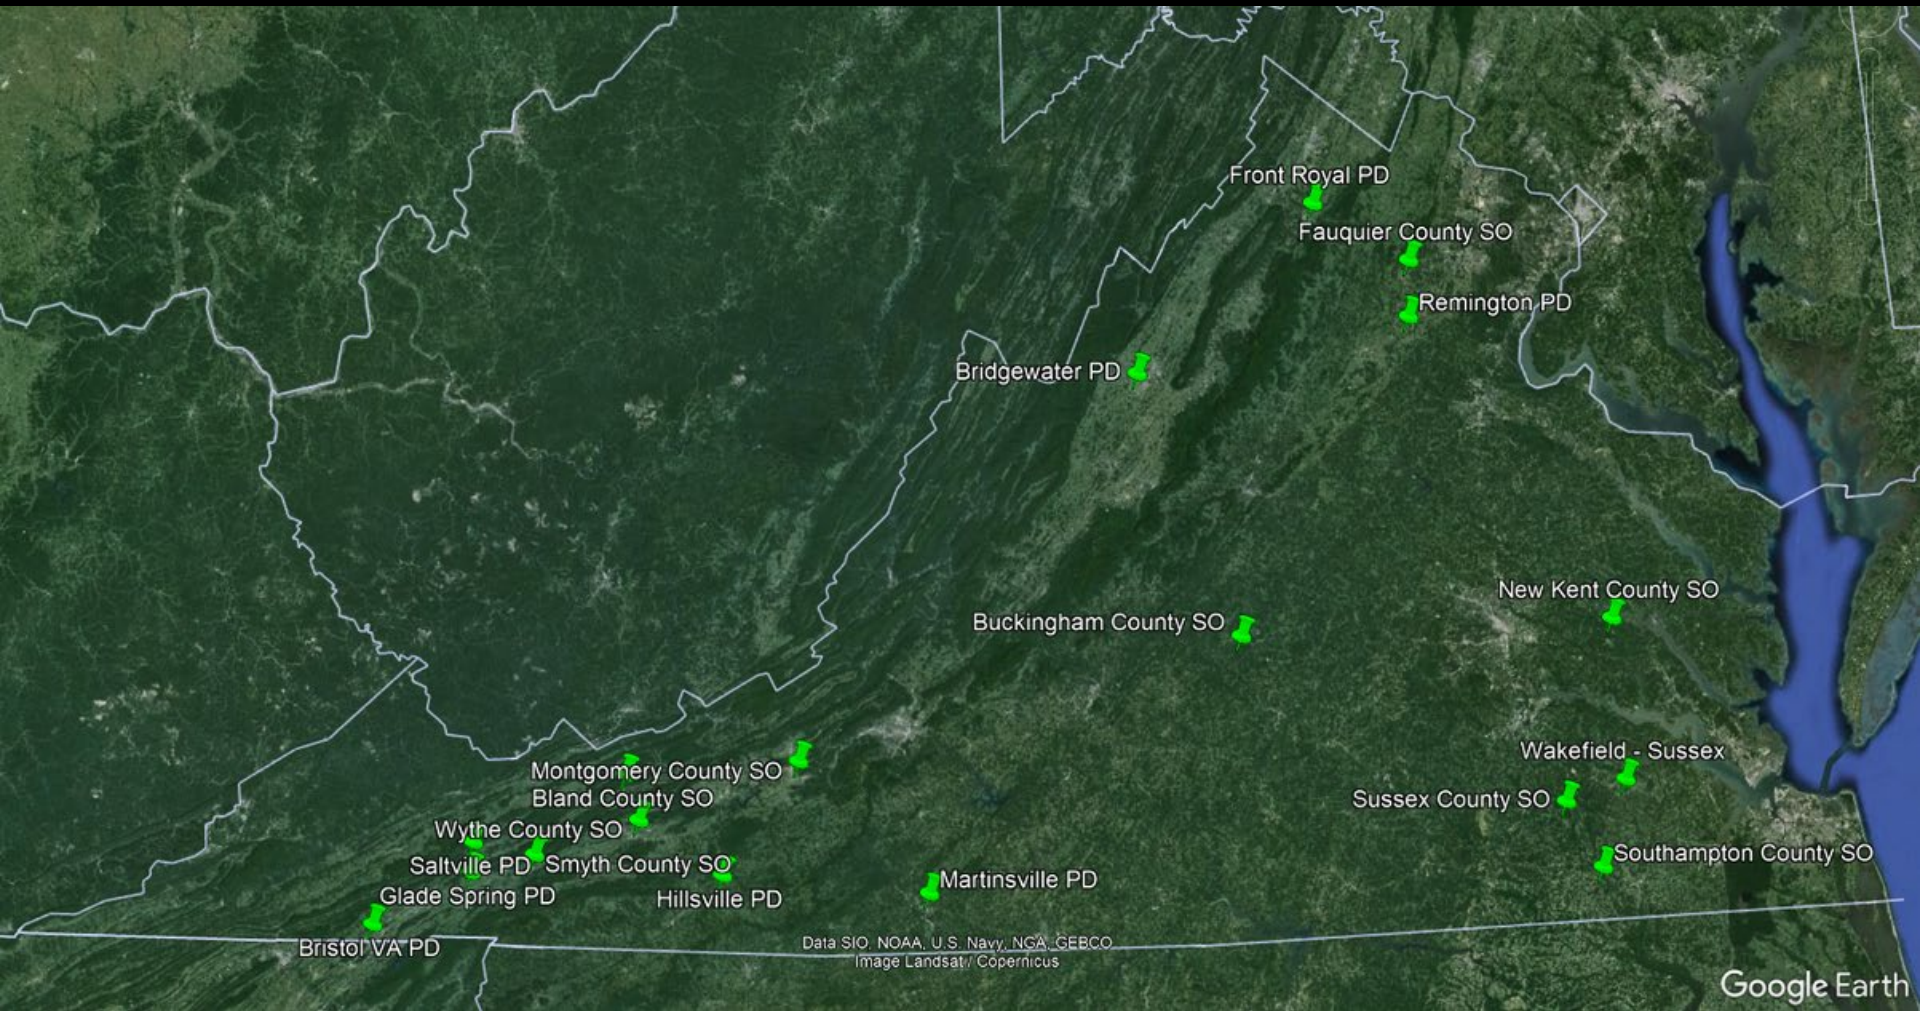

As part of the turn-key solution, Blue Line provides the Court Liaison, who will coordinate directly with the local judiciary to establish court schedules for all locations, including locations, times, and the maximum number of hearings allowed per session. Once established, Blue Line will handle the receipt and processing of contest forms, scheduling violators for their court dates, and notifying violators of their court dates

The screenshot displays a software interface for managing court hearings. It includes a calendar view on the left, a central hearing schedule table, and a detailed hearing information form on the right.

Blue Line will prepare court packets for each contested citation and include the court docket, a copy of the citation, a violation information sheet, camera certification, and a self-test log of the camera. Once the hearing has been held, the court of jurisdiction must return the filled-out docket, at which time Blue Line will enter the decisions based on the docket; these include dismissals, fine reductions, and judgments of liability, which will be then used to notify the violator of the outcome and requirements.
